

## **RANGEVIEW PRIMARY SCHOOL COMMUNICATION POLICY**

### **RATIONALE**

Rangeview Primary School recognises that clear communication underpins strong home – school partnerships. The school aims to develop clear, two-way communication that fosters a strong community network and supports student learning. This policy provides information to parents in order to:

- Outline the ways in which information will be communicated by the school to the community; and
- Suggest the most suitable avenues for parents/guardians to communicate with the school.

### **GUIDELINES**

#### **Implementation:**

- At the beginning of every school year, parents new to Rangeview Primary School will be made aware of the Communication Policy.
- The Communication Policy will be uploaded to, and available on, the school website.
- The policies describe the rationale, aims and implementations of the operations and directions of the school as a whole.
- The process of considering school policies will be managed by the principal and will be a continuous cycle, and will use a transparent and consultative process.
- New policies will be added and modified to reflect the growth and evolution of the new school and new programs.
- All policies will use the school policy layout, meet legislative and compliance requirements, and have a designated review period
- When developing a new policy, the principal will consult with appropriate personnel in order to draft the initial policy statement. The draft policy may be circulated for comment to the appropriate committee/s, to staff members, to parents, to students before ratification by School Council.
- Policies will be developed taking into account DET policies, memos and circulars relating to a particular policy area.
- A database of policies and a review schedule to provide a timeline for reviews either annually or on a three-year basis is to be maintained.
- When reviewing an existing school policy as per the three-year review cycle, the principal will consult with staff and the appropriate Committee/s, and to School Council for ratification.
- Changes as a result of policy developments and / or reviews will be widely advised to students, staff and parents.
- Staff will be given opportunity to provide input into the policy development or review process.
- The focus of all school policies must remain the needs of students and school operations. Reference the school's Supervision and Duty of Care Policy
- Any concerns relating to the structure of the school should be directed to the principal or School Council president.
- Relevant policies will also be loaded onto the intranet and school website for community observation and comment

## **Specific forms of communication:**

### School Policies

All school policies, once ratified by School Council, will be uploaded to the school policy folder and more specific policies are uploaded to the school website and will be reviewed on a five year cycle unless otherwise determined by DET.

### General School Information

- A weekly school newsletter will be uploaded to the school website every Wednesday. Families can receive notification via email subscription.
- The Rangeview UpDated App – using smart phones, we are able to keep the community up to date on what is happening and events that are coming up at our school (and any changes that may occur). It can be used for specific cohorts of parents (i.e. only parents in a particular class or level) or for the whole school community. Communication is instant and one way – it is not a form of 'social media'.
- SENTRAL School Management Platform
- RPS P&F Facebook Page
- Class newsletters will go out within the first three weeks of each term, moving to an electronic form in 2016 /2017.

### Annual Report

All families will be able to access the school's Annual Report, via the school website, usually in term two.

### Student Achievement

All families will be provided with an online mid-year and end of year written report for each individual child. These reports are accessed through the parent portal in SENTRAL. A printed report can be requested if needed. Families will have the opportunity to attend a Parent/Teacher Conference at the end of term two. These appointments are made through the parent portal in SENTRAL as well.

Teachers will be available for formal meetings as required.

Parents of students in grade three and five will receive an A3 copy of the National Assessment Program Literacy and Numeracy (NAPLAN) sent home in a sealed envelope.

### Students with Additional Learning Needs

In addition to the above information, parents/guardians of students receiving funding through the Program for Students with a Disability (PSD) program will be invited to attend one formal Student Support Group (SSG) meeting per term, to discuss their child's Individual Learning Plan (ILP).

### Classroom Processes/ Expectations and Information

Within the first three weeks of each school year, families will receive a hard copy moving to an electronic copy of their child's/ren's class newsletter- What's Happening in Level X. This document will outline classroom expectations related to relationships, learning and communication. It will include timetables and any other classroom level specific details.

### Emergency Management

Evacuation Plans will be updated annually and displayed in all classrooms, all administering office, the staffroom and school hall. Evacuation drills will be held each term.

### Student Attendance

Attendance rolls will be marked twice per day. Frequent and unexplained absences will be followed up by the classroom teacher and AP.

### Student Care

Families will be notified if a student has attended sickbay with a sickbay slip sent home with the student. This will outline the type of injury and attention provided.

Families of students who have received an injury to the head will be contacted by telephone immediately.

### Student Behaviour

Parents will be notified of serious incidences of negative school behaviour via notices home and, for ongoing events, via personal telephone conversations.

### Absent Students

In the event that students are absent when information is sent home, teaching staff will label the relevant information with the child's name and hand it to the student upon his/her return to school.
